Power of Construction

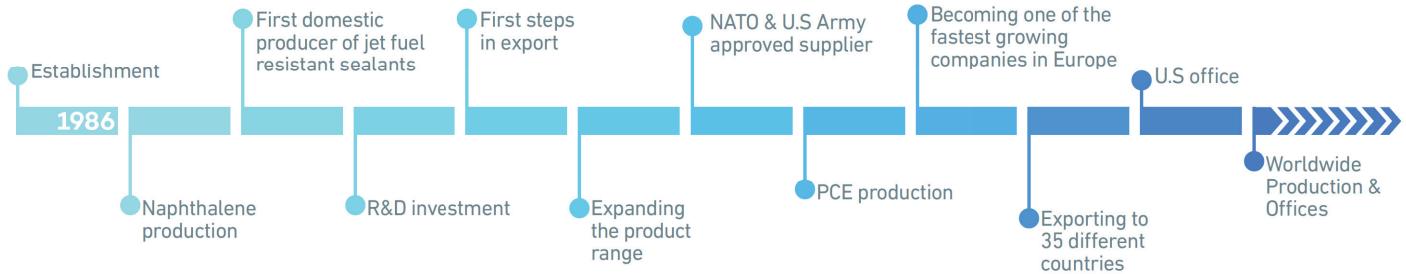

Our company **Stenkim®** Chemicals is a construction chemicals producer founded in **1986**. Our current product portfolio mainly consists of sealants, floorings, coatings, admixtures, concrete repair and reinforcement products, water proofing materials and polycarboxylates. The know-how and engineering skills acquired over **30 years** are utilized to design and manufacture products that match or exceed the quality of our multinational competitors. We are always designing new products and expanding our portfolio to fulfill evolving demands of the construction sector, as well as unique demands of specific construction projects. We are the first and sometimes the only domestic producer of many pioneering construction chemicals. Our dynamic structure, our devotion to continuous improvement and our determination and enthusiasm sustained our growth throughout the years. **Stenkim®'s** founding idea is to design, manufacture and certify products that conform to the current standards.

We are able to achieve this goal with our expert design engineers, highly sophisticated production and R&D facilities and our homegrown technologies. The uncompromising **Stenkim®** quality is the result of meticulous quality checks at each step of the production, from acceptance of the raw materials to approval of the finished goods. Our focus on quality extends to our services as well as our products. We aim to give the best possible product experience not only to our customers but also to all people and businesses we touch.

We strive to meet aesthetic and technical demands of the contemporary construction market. We are a customer focused, employee empowered company with a high level of environmental and social sensibility. So far, we have been active in 5 continents and 35 different countries, with subsidiaries and distributors in 6 different countries. Our goal is to become one of the globally recognized brands.

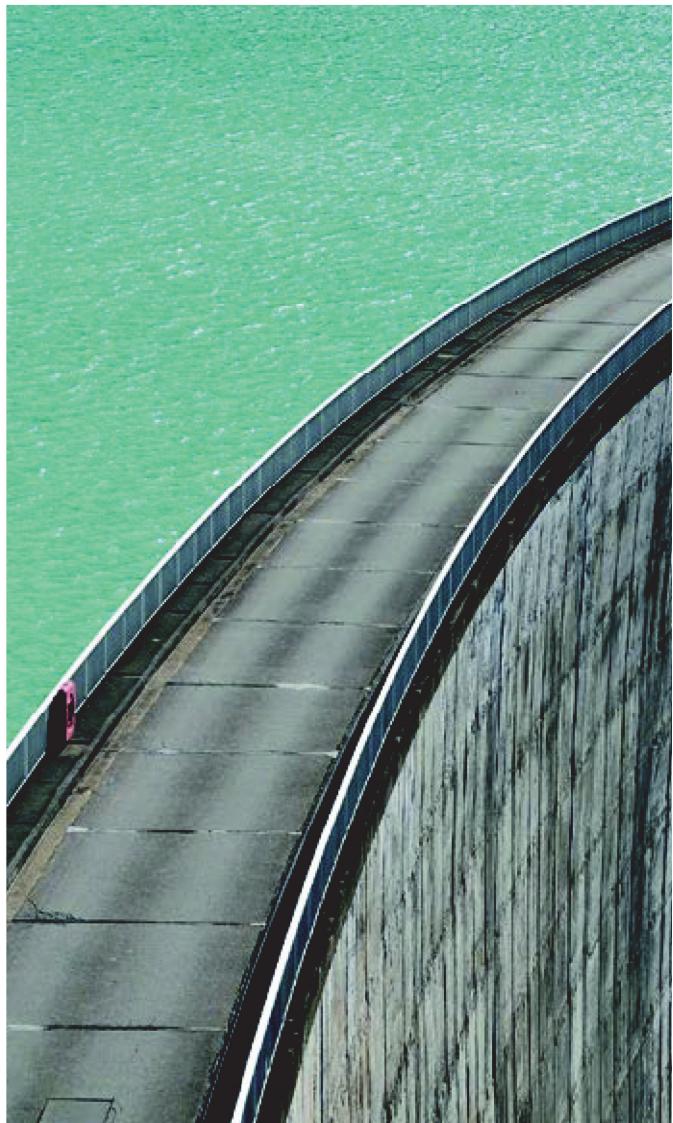

02

StenCare®

REPAIR AND REINFORCEMENT MATERIALS

POLYURETHANE & EPOXY MORTARS
MMA & EPOXY ANCHORS
POLYURETHANE &
EPOXY INJECTION RESINS
SHOTCRETE

StenCare® branded products offer robust and reliable solutions to different repair and reinforcement projects. There are solutions for high strength concrete repair, rebar anchoring, injection resins for water stopping, ground consolidation, crack repair and shotcrete solutions for tunnels, mines, pavements and buildings.

JOINT AND CRACK SEALANTS

JET FUEL RESISTANT SEALANTS
ONE COMPONENT SEALANTS
TWO COMPONENTS SEALANTS
HOT APPLIED JOINT SEALANTS

Stenkim® produces polyurethane, silicon, polysulfide and epoxy based sealants suitable for various applications. **StenSeal®** branded sealants can be used at concrete and asphalt joints at airports, highways, refineries, industrial facilities, prefabricated structures, food and chemicals process plants.

01

StenSeal®

FLOOR COATING PRODUCTS

INDUSTRIAL FLOOR COATINGS
CAR PARK DECK SYSTEMS
SEALERS AND PROTECTIVE TOP COATS
SPORTS FLOORINGS

StenCoat® branded products fulfill the compelling technical and aesthetic requirements of flooring projects. **StenScreed®** branded heavy duty polyurethane concretes are designed for demanding food and process industries. **StenSport®** products are flexible polyurethane line for gyms, play grounds as well as sport fields.

StenCoat M®

WATERPROOFING WATER AND OIL REPELLENTS

POLYUREA
POLYURETHANE
SILANE

StenCoat M® branded polyurethane and spray applied polyurea coatings forms seamless, trafficable, highly elastic, crack bridging and durable waterproofing solutions. **StenSilan®** branded silane based products creates a repellent surface to protect buildings against water ingress, salt and various pollutants.

06

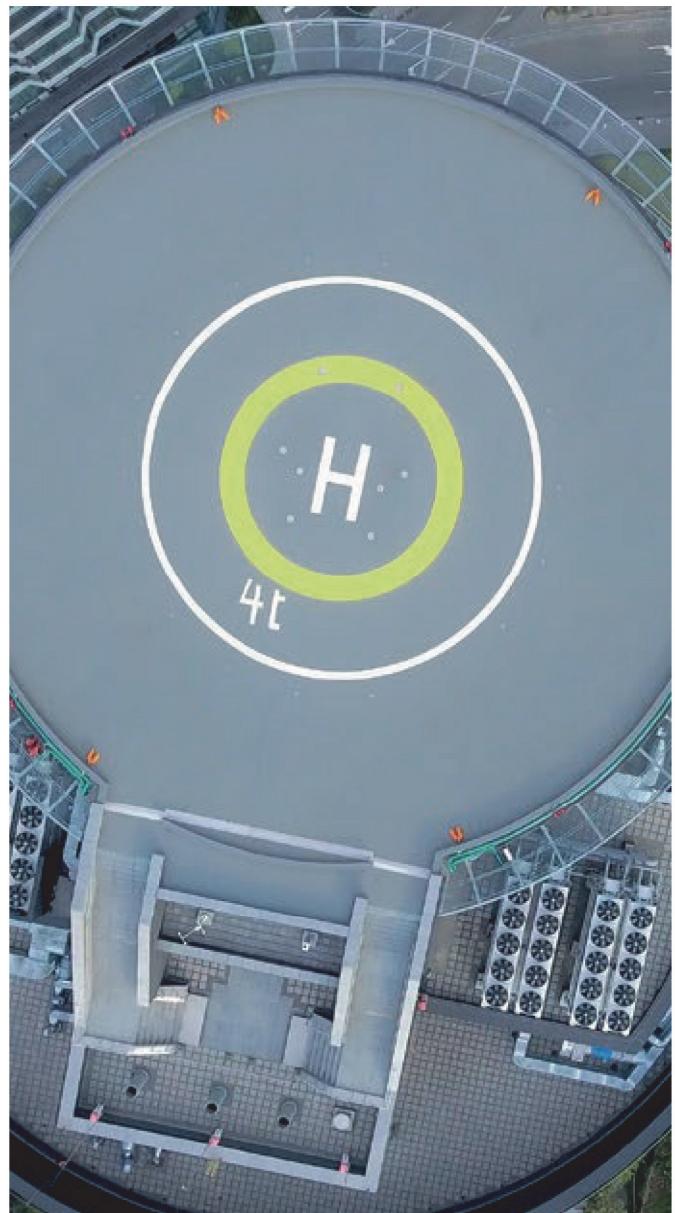

**StenCure®
StenMix®**

ADMIXTURES AND CONCRETE CURING

CURING AGENTS CONCRETE ADMIXTURES

StenCure® series provides economical and effective solutions to prevent water loss and shrinkage cracks in fresh concrete. **StenMix®** branded concrete admixtures are formulated for high performance, high strength and durable concrete with improved workability.

SPECIAL PAINTS AND PROTECTIVE COATINGS

ROAD MARKING PAINTS INDUSTRIAL PAINTS AND COATINGS PROTECTIVE PAINTS AND COATINGS

Stenkim® provide **StenCoat®** branded road marking paints for industrial floorings, concrete and asphalt pavements at airports and highways. Chemical resistant and anticorrosive coatings for concrete, asphalt and metal surfaces.

StenCoat®

05

CONCRETE ADMIXTURE RAW MATERIALS

POLYCARBOXYLATES
DEFOAMERS
BOOSTER POLYMERS

Sn Flux® series of **PCEs** provide flexibility for concrete admixture producers to achieve the desired combination of water reduction, slump retention, early strength and workability of the concrete.

We serve construction sector with a wide range of products. Besides our standard list of products we have the ability to design for the special and unique needs of our customers. Our success is based on offering effective and complete system solutions to our customers by virtue of our high quality products and services. Our customers do not only buy a product but they buy a complete solution package including materials, pre-sales and post-sales services such as consultation and training. Nearly all of our products conform to at least one of applicable **EN, ISO** or **ASTM** standards. We produce more than **150 products** to serve construction sector.
